SENSUAL MINIMALISM

The cosmopolitan aesthetic of Lineare is minimal yet highly inviting. In keeping with the concept of minimalism, Lineare has been reduced to only the necessary elements to achieve the thinnest possible appearance. The line is

based on a composition of two simple geometric structures – cylindrical bodies and thin rectangular forms of the handle and spout create beautiful harmonious compositions.

Creating a beautiful area for bathing and showering can often be a challenge, since the space available is frequently very limited. The GROHE Rapido SmartBox System offers the luxury of extra space thanks to our super slim trimsets. One great advantage is the extra flexibility that comes with our system, allowing you to install the box now and decide on the final design and look later on.

SHOWER PLEASURE TO THE POWER OF THREE

Control up to three showers with just one trim. Today's trend is for a multiple shower experience that offers more than simple bath/shower combinations. The downside is that for this to work, you need two rough-ins and two trims to control a hand shower and a two-spray head shower: up until now. With

just one rough-in and one trim, it is possible to enjoy two head shower functions. The pleasure of using two head shower sprays is enhanced by the Rainshower 360 and the Rainshower 310 head showers. Designed to be the perfect match, they deliver an unmissable shower sensation.

METAL PLATE, ERGONOMIC GRIP

In keeping with its sleek design, the GROHE SmartControl Concealed uses premium materials. Its ergonomic buttons have a knurled grip for ease of use.

SLIM IS THE NEW BEAUTIFUL

43 MM TOTAL OUTREACH

No matter what the installation depth of the rough-in is, the total height of the trim never exceeds 43 mm. The GROHE SmartControl Concealed combines space-saving convenience in the shower and slim good looks.

THINNER WALL PLATES

With a height of only 10 mm, its super slim design makes the GROHE SmartControl Concealed wall plate both elegant and space saving.

HIDDEN SEALING SYSTEM

The GROHE SmartControl Concealed has an integrated sealing system, completely eliminating water behind the wall.

SYMBOLS CAN BE CHANGED

The control knobs come with a range of different symbols, representing the different shower options. These symbols are clear and recognisable and their functionality distinct. They can be individually configured and also easily exchanged if required.

SLEEK SPACE-SAVER

Designed and engineered for more comfort, convenience and space, our two-handle thermostats look deceptively simple. The exceedingly narrow plates, with a width of just 10 mm, and the slim design of the controls ensure that the overall outreach is a mere 43 mm. THERMOSTATS

PRECISE CONTROL FOR A RELEAXEDED SHOWER EXPERIENCE

As our benchmark when constructing GROHE thermostats we used the most sensitive thermometer around – your skin. The revolutionary thermostats in our Grohtherm range ensure that hot and cold water will touch your skin in exactly the proportions you desire. GROHE TurboStat

is a revolutionary technical feature – it provides the correct shower temperature in seconds and keeps it constant. The many elegant design features in these miniature technological marvels are wonderfully innovative.

COMFORT, SAFETY, SAVINGS

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a faucet or flushes the toilet; suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

USER-FRIENDLY FEATURES

Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves, and an EcoButton to reduce water usage by up to 50%. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height, while the AquaDimmer allows you to turn the water on and off, adjust the flow rate and divert between two water outlets, e.g. hand shower and bath spout.

GROHE COOLTOUCH

SAFETY FIRST WITH 100% GROHE COOLTOUCH.

GROHE's CoolTouch technology ensures that the entire outer surface never exceeds your preferred shower temperature. By designing our thermostats to include an innovative cooling channel, we have created a barrier between the hot water and the chrome surface – so it's never too hot to handle. On top, Grohtherm SmartControl and Grohtherm 2000 feature GROHE CoolTouch wall unions to perform 100% GROHE CoolTouch for safety surround. This safety measure is especially useful for children, who can not always judge whether something they touch is dangerously hot.

GROHE GROHTHERM SMARTCONTROL CONCEALED

TURN UP THE VOLUME – OR DOWN IF YOU PREFER

GROHE SmartControl offers not just a choice of shower sprays, but also the precise control of water flow. GROHE SmartControl features an integrated volume control for an individual shower experience. A simple push of a button

starts or stops the desired shower. And just a turn of the dial allows for precise control of water volume. Thanks to the clear symbols on the buttons, operating them is simple and intuitive.

SWITCHING SPRAYS? YOU CAN DO IT WITH YOUR EYES SHUT

Our thermostats with conventional operation are anything but conventional themselves. We designed them to be as user-friendly and intuitive as possible. Turn on the hand shower by rotating the upper control button slightly to the left. To increase the water flow and obtain a more powerful spray, simply keep

turning the button further to the left. And to switch over to the head shower head, turn the control button towards the right. Continue turning to the right to turn up the volume. Also available as 1-function model to operate a single shower or 2-function model for shower and bath fill operation.
